Re: SEAA 1411

November 10, 2010

Water Users:

Enclosed is a formal order from the State Engineer's Office explaining that the head gate and flume at the Horse Creek diversion need repair and requiring that those repairs be made before the start of the next irrigation season if water is to be diverted from Horse Creek.

You are receiving the order because the State Engineer's records indicate you own water rights on Horse Creek.

I've looked at the Horse Creek diversion and believe there are a couple of simple, inexpensive options to get the head gate and flume functioning. Should you wish to discuss the required repairs or have any questions about this order, please feel free to call me at (801) 538-7431.

Regards,

Sue Odekirk, P.E.  
Distribution Engineer
